Testimonial

7-2-2018

Supplier:- Oxtex Australia Pty Ltd

Product:- Re:- X550 Carpark

Project:- 37 Apartments, 4 Commercial units, 1 x 84 place Child Care Centre and 72 space basement carpark at Corner Llewellyn St and Merewether St, Merewether.

The Basement carpark on this project comprises of 2,789.50 m2 and 72 car parking spaces which includes 17 drop off carpark spaces for the childcare centre (continual usage basically all day x 5 days per week) 37 private storage cages, carwash bay and 4 lifts. AKM looked at many different products to apply to the basement carpark on this project to try and achieve the best possible long term outcome for the project as this carpark slab will have a lot of usage as well as a lot of tight turning to enter and exist individual car park spaces. After looking at several other products and consultation with manufacturers we settled on Oxtex Australia Pty Ltd as our supplier and the X550 Carpark as our product of choice. This product achieves and satisfied AKM for the following issues.

- Curing of the concrete slab the day the slab was poured, Initial construction wear from placing and removal of formwork. Balance of construction.
- Hardens the actual surface of the concrete slab
- Densify and seal the top of the concrete carpark slab for ALL future and post completion usage for the duration of the project.
