

# Payneham Memorial Swimming Centre

194 O G Road, Felixstow SA 5070

Project No:

**00037**

Product :

**X263 Medi-Vet Repeller**

Area :

**2600 m2**

Distributor :

**BIANCO SA**

Contractor :

**Concure Concrete Surface Solutions**

Builder :

**BADGE SA**

## Scope of works

The City of Norwood Payneham & St Peters is proud to unveil the next chapter for one of the City's most cherished assets, the Payneham Memorial Swimming Centre.

Following a transformative redevelopment, the facility has been reimagined from a traditional local pool into a premier, state-of-the-art aquatic and recreational destination with regional appeal. A landmark project in the eastern suburbs of Adelaide that was delivered by BADGE SA.

To provide long term protection of the external concrete surfaces around the facility and to address the threats posed from the operational swimming pool environment, X263 Medi-vet Repeller was applied to the prepared and cleaned concrete substrates for durability performance, enhanced surface protection and stain resistance, and ease of cleaning.

## Features & Benefits - X263 Medi-Vet Repeller

Cures, densifies, hardens, waterproofs, and seals concrete.

Provides protection from bacteria, with proven control of E. coli and MRSA.

Delivers surface protection against spills and contamination.

Makes concrete impermeable, increasing durability and service life.

Invisible, UV-resistant finish that does not affect slip rating.

Suitable for application at time of pour or to existing clean, porous concrete.

Provides a temporary hydrophobic beading effect.

Environmentally friendly and HACCP certified.

Increases tensile and compressive strength.

Reduces efflorescence and shrinkage cracking.

Compatible with line-marking paints and epoxy coatings.
